**Product Code:** 04-1142

## Toxic Cabinet - 100L

### Product Features

A Chemshed under bench storage cabinet for toxic substances with a 100L capacity and featuring the patented sequential closing system.

Designed with the medium sized user in mind, this double door cabinet promotes workplace safety by minimising contact with Class 6 substances and fumes. This unit is a sound investment for businesses looking to get their compliance requirements quickly up to speed.

- Built to comply with the requirements of AS/NZ4452 standard
- Self-closing, non-latching door (as required)
- Built in flash arrestors and vent openings
- High capacity, liquid-tight sump
- Supplied with Class 6 decals

chemshed
